

Safety and Quality go hand in hand.

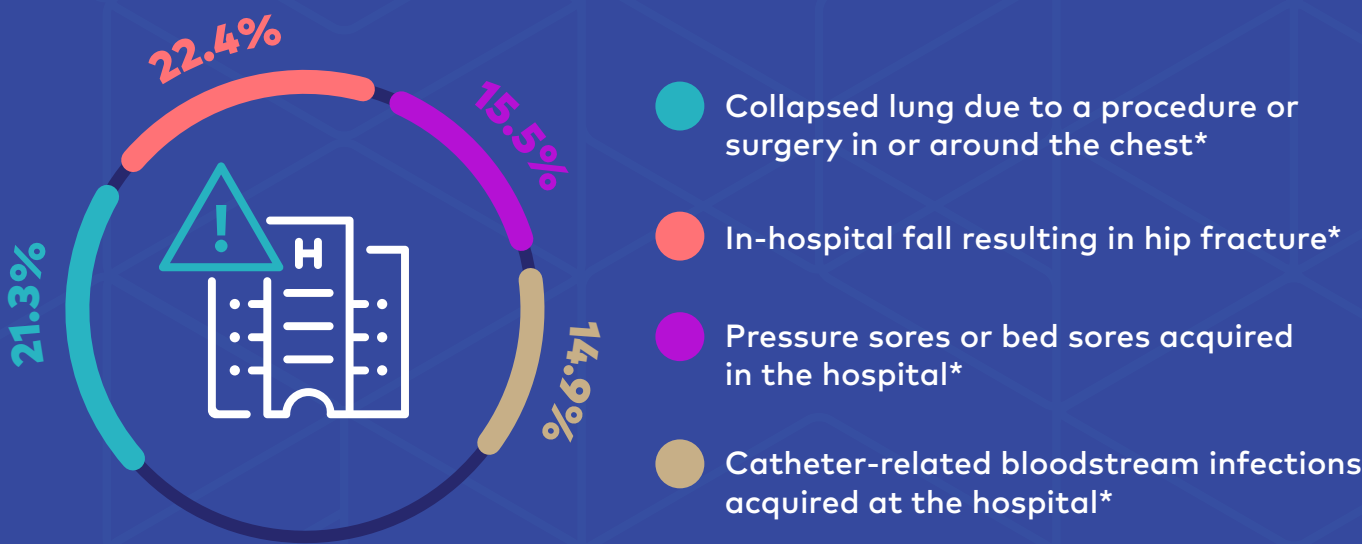

Choose a hospital that excels at both.

..... From 2019 through 2021, there were

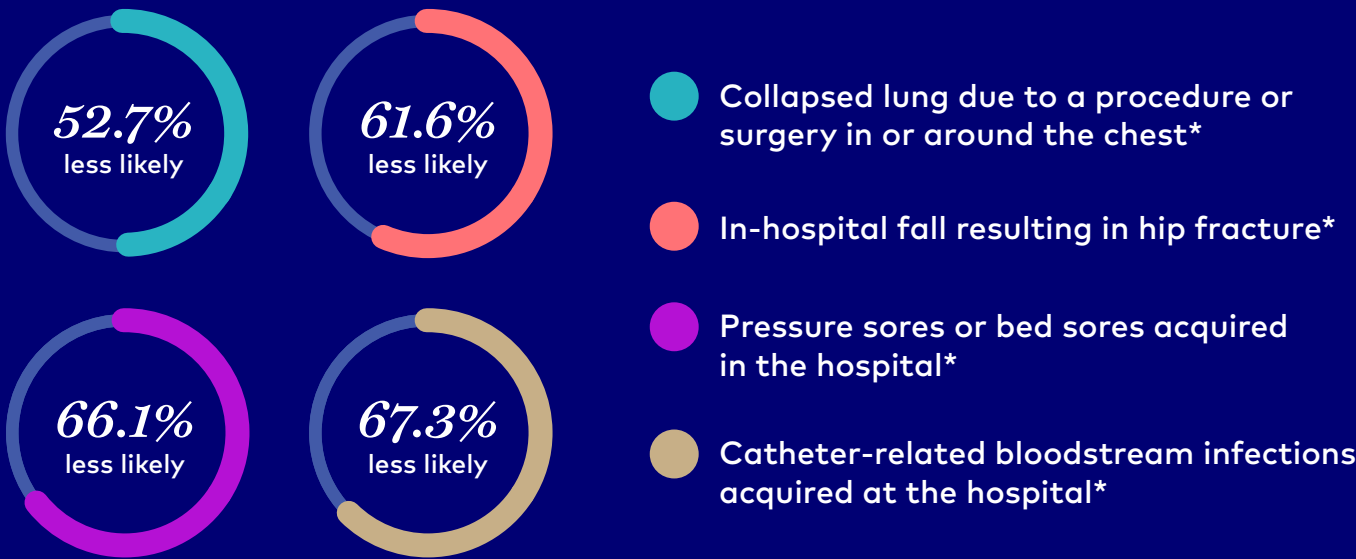

164,592 potentially preventable patient safety events among Medicare patients in U.S. hospitals.*

Nearly **74%** of all patient safety events occurred in these four categories:

Safer Care = Better Outcomes

Patients treated at recipient hospitals were **less likely** to experience these patient safety events than patients at non-recipient hospitals:

Fewer patient safety events

If all hospitals as a group performed similarly to Patient Safety Excellence Award™ recipients, on average,

95,880 patient safety events could have been avoided

445 hospitals received the 2023 Healthgrades Patient Safety Excellence Award

Congratulations to the 2023 Patient Safety Excellence Award recipients!

*Statistics are calculated from Healthgrades Patient Safety Ratings and Excellence Award methodology which is based primarily on AHRQ technical specifications (Version 2022.0.1) to MedPAR data for years 2019 through 2021 and represent 3-year estimates for Medicare patients only.
